UIT Gains National Recognition

United Information Technologies Named among Nation's Top 500

Greater Chicago, February 28, 2007 - In recognition of the economic power of multicultural businesses, DiversityBusiness.com, the nation's leading multicultural internet site, recently named United Information Technologies as an award winner in six major categories, including being recognized as one of "Top Diversity Companies in the United States, Top Woman-Owned Businesses (WBE) in the United States, and Top Small Businesses in the United States (Div500)". UIT also earned additional awards at the state level as well.

The Div500 is the 7th annual listing of the Nation's top 500 small businesses. Ranging in revenue size from \$10 Million to over \$100 Million, the companies listed on the Div500 represent the Nation's top multicultural earners and challenge the long-held notion that a small business is small or insignificant. Div500 members are sought after by major corporations wishing to increase spending with small businesses.

The Impact of Diversity Business

Affected by recent economic and demographic trends and changes, Fortune 1000 corporations throughout the country have recognized that buying products and services from diversity owned companies positively impacts their business. Small and Diversity-owned businesses contribute over \$1.4 trillion in sales to the U.S. economy.

"Small Businesses and consumers are a growing force in the U.S. economy, and a force to be reckoned with," said Kenton Clarke, CEO of Computer Consulting Associates International, the company that built DiversityBusiness.com. This is a whole business segment that can carry its own, that provides jobs, products and services, and generates wealth for their communities. These are the new leaders in American business."

Gloria Bohan, CEO of Omega World Travel in Fairfax, Virginia commented

"This group represents the entrepreneurial spirit that drives our economy and even more. It offers insights into a vastness of cultures and an exchange of ideas that are so valuable in helping me to understand how to reach the needs of today's consumers".

Gloria Murphy, CEO of United Information Technologies commented

"UIT owes our current success to our client base composed of Fortune 500 firms that have an interest and belief in the power of small business. We are proud to be a part of the Div500 and we are grateful for the opportunity to be included in such a dynamic group of companies".

The Div500

The Div500 is a classification that represents the top 500 small businesses in the U.S., in sectors such as technology, manufacturing, food service and professional services. Large organizational buyers throughout the country that do business with small businesses use the list. The Div500 is produced annually by DiversityBusiness.com, the nation's leading multicultural B2B Internet portal that links large organizational buyers to multicultural product and service suppliers.

The winning companies will be honored at a special awards ceremony at DiversityBusiness.com's "7th Annual Multicultural Business Conference", taking place April 11 - 13, 2007 at the Mirage in Las Vegas, Nevada.

John Golak, President of United Information Technologies commented

"UIT was built on the premise that ideas and ingenuity are factors that can drive success. It is this same entrepreneurial spirit that drives small business. We are proud to be included in the Div500 and we would like to congratulate all of our fellow Div500 members".

Justin Gates, Special Projects Manager at United Information Technologies commented

"I have no doubt the small businesses will continue to grow in importance as contributors to the U.S. economy moving into the future. The Div500 serves as a testament to the power of small business and UIT is honored to be part of this testament".
